Alpha Muscle is a bodybuilding supplement that may help prevent the breakdown of muscle tissue.

It helps to achieve this effect by keeping protein from breaking down and preserving more for the muscles to use. Having the ability to utilize a greater amount of protein has shown to produce an anabolic reaction from workouts.

This means that Alpha Muscle may have a rather high anti-catabolic effect and decrease the amount of time for muscle recovery.

Available in 30 & 60 count bottles

Suggested Use: As a dietary supplement, adults take one (1) capsule daily
